Subject Index

*Indicates a book review

Absenteeism, alcohol misuse and 29
Addiction
  control policies, economics of 265–7
  historical review 233–43
  meaning of 445*
  nature of 23–5
  non-drug 23–5
Addiction Research Foundation (ARF), Toronto 255, 257–60
  community-based treatment systems 413–7
Addiction Scale 315–19
Adolescents
  drugs and drinking in 442*
  glue sniffing 105*
  prevention of drug abuse in 105*
Africa, East
  alcohol problems 123–5
  alcohol research 121–6
  use of alcohol in 121–3
Ageing and smoking 220*
Aggression and alcohol/drug abuse 106*
Air pollution, cigarette smoke 201–6
Alcohol
  addiction to
    historical review 235–6
    nature of 23, 24
  advertising 108*
  availability and cost 108*
  children's attitudes to 191–4
  children's experience of 192
  consumption
    control of 355–60
    and crime 307–8
    distribution 83–99
    effects on women 218*
    epilepsy and 227–32
    genetic and environmental influences 272–3
    Japan 127–9
    and motor vehicle accidents 173–80
    Netherlands 1958–1981 361–9
    in pregnancy 11–22, 218*, 327*
    problems related to *see* Alcohol, problems *and* Problem drinking
    regional variations in Britain 419–26
    trends 329*
    underestimation on recall 215–16
  control policies 355
    New Zealand 356–9
    organisational politics of 358–60
    sources of opposition 357–8
  dependence 133
    handbook for students 107*
    psychology and 107*
    questionnaires on 58–62, 301–5
    see also Alcoholism
    sociocultural factors 133–9
    syndrome 57, 93
  EEC policies on 266–7
  flushing, Japanese 128
  in Georgian Britain 387–92
    medical view of 389, 391
  international industry 142–6
  and liver disease
    advice given to patients 51–6
    cirrhosis 400
  misuse
    adolescents 442*
    and aggression 106*
    among the affluent 442*
    costs to National Health Service 30–2
    economics of 108*
    effects on industry 28–30
    in elderly 221, 221*
    prevention 329*
    screening 55
    social costs 27–35
    social victims of 307–14
  problems of 326*, 329*, 445*
    community responses to, WHO Study (Ed) 355
    in East Africa 123–5

in women 440*
see also Problem drinking
production and trade 142–6
research
Australia 343–8
Canada 255–63
East Africa 121–6
Finland 337–8, 340
India 349–53
Japan 127–32
Nordic countries 245–53
use
integrated value-expectancy theory 383–5
religious affiliation and 165–8
use and role in East Africa 121–3
withdrawal
and basal ganglia diseases 214
effect on dopamine receptors 214
and Gilles de la Tourette syndrome 213–14
seizures 230–1
vasopressin concentrations during 195–9
water balance during 195, 198
Alcohol Education Centre, links with ATUs 183
Alcoholic drinks, varying effects of different types 424
Alcoholic Liquor Advisory Council (ALAC), New Zealand 356–9
Alcoholics
assessment interviews, effect on clinical reattendance 211–12
community housing for, ATUs links with 182
haemolysis resistance test in 77–82
treated, subsequent drinking behaviour 45–50
Wernicke-Korsakoff syndrome in 71–5
Alcoholics Anonymous, links with ATUs 182, 187
Alcoholism
black Americans 441*
clinical biochemistry 440*
development of 326*
East Africa 123–5
environmental influences 271–2, 273
familial transmission 271
first recognition as medical problem 387, 392–5
genetic influences 273
history of research in U.S. 5–9
Japan 127–31
local councils on, links with ATUs 183, 187
Medical Council on *see* Medical Council on Alcoholism
National Council on *see* National Council on Alcoholism
pharmacological treatments 108*
psychology of (Ed) 3
see also Alcohol, dependence
sociocultural factors 133–9
treatment 326*, 445*
community-based 413–17
cyanamide 130
Japan 128, 130
Naikan 130
outcome 153–62
psychologists' role (Ed) 3
world-wide analysis 325*
Alcoholism Treatment Units (ATUs)
family visits and 185
links with community agencies 181–9
links with other ATUs 186, 188
training provision and 185, 187
Amputation in drug addicts 101
Anticonvulsants
effects of ethanol on 229
in prevention of withdrawal fits 230–1
Anxiolytics 327*
Arteries, damage in drug addicts 101
Australia
alcohol research 343–8
history of tobacco smoking 439*

Bacon, Selden D., interview with 115–20
Beer
drinking, and Wernicke Korsakoff syndrome 74–5
East African 122–3
Behaviour
addictive *see* Addiction
drinking *see* Drinking behaviour
health-related 381
smoking *see* Smoking behaviour
theories 381–6
Benzodiazepines 327*
dependence on 219*
Body weight, smoking and 371–9
Bone
disease in alcoholics 65–8
fractures in alcoholics 65–8
Bowel, small, drug abuse and infarction of 101
Brazil, use of SADD questionnaire 301–5
Bruun, Kettil, interview with 337–41

Canada
alcohol research 255–63
history of alcohol use 255–6
methadone treatment programmes 291–9
see also Ontario
Cancer of oesophagus 123
Candidiasis in heroin addicts 103–4
Cannabis
religious affiliation and use of 165, 168
self-reported use in Great Britain 1981 37–43
Chewing gum, nicotine 321–4
Children
attitudes to alcohol 191–4
awareness of alcohol-related problems 192–3
experience of alcohol 192
glue sniffing 105*

Cigarettes
low-tar 430
tar and nicotine yields in U.K. 427–32
Cocaine, history of abuse 240
Coffee drinking, genetic and cultural influences 274, 275
Crime
alcohol and 307–8
East Africa 124
social cost 32–3
alternatives to prison 332*
drugs and 149
Cyanamide therapy for alcoholism 130

Danshukai 130
Dehydration in alcohol withdrawal 195, 198
Denmark, alcohol research 245–53
Dependence
drugs clinic, London 433–8
sociocultural factors 133–9
